HARDWARE,

At the present time there is a quite a large number of persons who will not be trusted at all, and there is a much larger portion of the community who cannot get credit any where, but are obliged to pay cash at credit prices. These two classes form, perhaps, more than one-half of our population and there is no good reason why a poor man should pay more than a rich one; and no sense at all in charging CASH CUSTOMERS for bad debts incurred under the present mode of merchandizing. If the people will only bestow one thought upon the subject they will at once see that—paying cash tomers assume all the bad debts, or, in other words, they take all the risks of the credit system. The present time is very discouraging for making debts; the obligations of the people are now very large, larger by far than the crops this season will discharge. Property of all kinds is continually running down, and how would, it be with us in the event of a total or even partial failure of the errops next season? Is there one so blind that he cannot see that in such an event it would take a large amount of property to pay a very small debt. Who then, is so bold as to increase their liabilities under this state of things?

Let Retrenchment, Economy, Industry, Perseverance and no more MAKING DEBTS be the Watchword, and take our word for it, in less than three years' time we shall be free from debts, sitting by our own firesides surrounded with plenty, contented and harpy.

JOB WORK Neatly executed at this office.

Fever and Ague, the globe, is the consequence of a diseased action in the system, induced by the poisonous miasm of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. Thereit acts as an irritating poison on the internal viscers and exercting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spheen, the kidneys, and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the luternal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the Chill. But in this effort it fails. Then the Feven follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through that other great excretory—the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of strength to repeat she hopeless effort another day. These are the fits or paroxyans of Feven and Aduce. Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an antidote,

Ayer's Ague Cure, which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the blood, As it should, so it does care this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from, the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked. Ague, Periodical Headache, or Billious Headache, Billious Fevers, Neuralgia, Rheumatism, Gout, Blindness, Toothache, Earache, Catarth, Asthma, Palpitations, Painful Affections of the Spleen, Hysterics, Colic, Paralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Adue Care" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excre-

the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and these organs by degrees become habited to do this their office of their own accord. Hence arises what we term acclimatation. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "AGUE CURE" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the missmatic infection, than any other which has been discovered; and it has still another important advantage to the public, which is, that it is cheap as well as good. PREPARED BY

DR. J. C. AYER & CO. LOWELL, MASS. PRICE ONE DOLLAR PER BOTTLE.

Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been em-ployed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
